Exclusions/Limitations

(insurance plans)

This is only a general outline of the exclusions. It is not an insurance contract, nor part of the insurance policy. You will find complete coverage details in the policy. Some state exceptions may apply (see State Variations insert 47394i-G). The purchase of this plan is not contingent upon purchasing or having any individual or group health insurance coverage.

Some states may require that you have Minimum Essential Coverage in order to avoid a penalty. The Short-term, limited duration insurance benefits under this coverage do not meet all federal requirements to qualify as “Minimum Essential Coverage” for health insurance under the Affordable Care Act (“ACA”). This plan of coverage does not include all Essential Health Benefits as required by the ACA. Preexisting Conditions are not covered under this plan of coverage. Be sure to check your Policy/Certificate carefully to make sure you understand what the Policy/Certificate does and does not cover. If this coverage expires or you lose eligibility for this coverage, you might have to wait until the next open enrollment period to get other health insurance coverage. You may be able to get longer term insurance that qualifies as “Minimum Essential Coverage” for health insurance under the ACA and help to pay for it at www.healthcare.gov. Be sure to check your Policy/Certificate carefully to make sure you are aware of any exclusions or limitations regarding coverage of preexisting conditions or health benefits (such as hospitalization, emergency services, maternity care, preventive care, prescription drugs and mental health and substance abuse use disorder services). Your Policy/Certificate might also have lifetime and/or dollar limits on health benefits.

General Exclusions and Limitations

This is not major medical insurance. No benefits are payable for treatment of any illness.

No benefits are payable for any loss caused by or resulting from:

- Any accident occurring before the policy effective date, after termination of the policy or during any time that coverage is not in force.

- Illness, disease or bodily infirmity or the medical treatment of any of these.
- Infections of any kind regardless of how contracted, including those resulting from surgery, except bacterial infection that is the direct result of an accidental cut or wound or accidental ingestion of a contaminated substance, independent of any underlying illness, disease or condition.

- An injury or illness arising out of, or in the course of, employment for wage or profit, if the covered person is insured, or is required to be insured, by workers’ compensation insurance pursuant to applicable state or federal law. If you enter into a settlement that waives a covered person’s right to recover future medical benefits under a workers’ compensation law or insurance plan, this exclusion will still apply. In the event that the workers’ compensation insurance carrier denies coverage for your workers’ compensation claim, this exclusion will still apply unless that denial is appealed to the proper governmental agency and the denial is upheld by the agency.
